

NORTHFRAME JOB 77 — MASTER BLUEPRINT V3

Everything Blended | July 2026

1. CORE PHILOSOPHY

You are the Governor. NeverX007 is the Foreman that runs Job 77.

- Own the pipeline. No rented agents.
- Two keys only: Gemini + OpenRouter (Grok).
- The machine fixes itself (Self-Healing Doctor).
- Your personal NeverX007 has no blockers on learning/memory.

2. NEVERX007 MONSTER GOVERNOR

- Strong learning loop after every movie (especially actor consistency)
- Supports PDF and AI Glasses POV input
- Layered workflow that can scale
- Smart routing between Gemini and Grok
- Voice read-aloud ready

3. HIRING SYSTEM

Create specialized agents with clear identities (name + role + recognition).

4. NEEDLE IN A HAYSTACK

Search system so NeverX007 can find exact information across all your PDFs and notes.

5. SELF-HEALING DOCTOR

Runs 24/7, watches the server, database, and disk. Auto-restarts when needed.

6. COST

Typical monthly: \$27–82. Much cheaper than old multi-subscription stack.
